Lucien Wong	Individual	Support	No

## Comments:

The submitted testimony for HR180 is the same as I wish to submit for SCR98. Testimony which has also been submitted for HR654 is the justification for adopting resolution SCR98 and HR180 to make people living here more aware of bile duct cancer a "silent killer". Mahalo

## Comments:

Aloha Chair, thank you for introducing this resolution. I strongly support the designation of a month to be recognized annually as bile duct/liver cancer awareness month in Hawaii. As long as we are leading the country with the highest mortality rate of all 50 states in bile duct cancer, we need to educate our people and create awareness about this lethal cancer.

Mahalo
